

Dear Mayor Lazarro and Members of the Town Council:

The expanding residential growth has resulted in a population of kids with “nothing to do” and “nowhere to go”. It is time to address the severe lack of recreational facilities in Purcellville. As such, I am in support of the construction of a skate boarding facility in the Town of Purcellville. It is time to give kids a safe place to skate and reduce the amount of time and money spent on enforcing the “no skateboarding law” in town.

Please support a skateboarding facility in the Town of Purcellville.

Thank you.

Signed
